Form RMFT-141 Instructions

General Information

Who must file Form RMFT-141

If you produced biodiesel fuel or blended diesel with any agent to make a biodiesel blend, for your own use in operating motor vehicles on Illinois public highways or, for use in recreational-type watercraft on Illinois waters, you must file Form RMFT-141, Private-Use Biodiesel Producer Return.

Note: Do **not** report any sale of biodiesel on Form RMFT-141. Call **217 782-2291** for instructions if you made any sale of biodiesel fuel or biodiesel blends. Form RMFT-141 is limited to use only by persons who produce biodiesel fuel and biodiesel blends exclusively for personal use and not for resale.

When is Form RMFT-141 due?

The number of biodiesel fuel gallons you use, produce or blend per year determines when you must file Form RMFT-141.

- **5,000 or more gallons**, you are a monthly filer and your return is due on or before the twentieth day of each month for the previous month's activity.
- **Less than 5,000 gallons**, you are an annual filer and your return is due on or before January twentieth for the previous calendar year.

What do I need to attach to Form RMFT-141?

Attach invoices for the diesel fuel you purchased for blending purposes and on which you paid the Illinois Motor Fuel Tax.

Where do I send my completed RMFT-141?

Mail your completed return and payment to:

**MOTOR FUEL TAX
ILLINOIS DEPARTMENT OF REVENUE
PO BOX 19019
SPRINGFIELD IL 62794-9019**

If you have questions, write us at the address above or call weekdays between 8:00 a.m. and 4:30 p.m. at **217 782-2291**.

Definitions

Biodiesel: A renewable diesel fuel derived from biomass intended for use in diesel engines.

Biodiesel blends: A blend of biodiesel with petroleum-based diesel fuel in which the resultant product contains no less than 1 percent, and no more than 99 percent biodiesel. (*ie.*, a B20 blend is 20 percent biodiesel and 80 percent petro-diesel.)

Biomass: Non-fossil, organic materials with an intrinsic chemical energy content. "Biomass" includes, but is not limited to, soybean oil, other vegetable oils, and ethanol.

Blending: The mixing together by any process, of any product with other products, regardless of the original character of the products so blended, provided the resultant product so obtained is suitable or practicable for use as a motor fuel.

Diesel fuel: Any product intended for use or offered for sale as a fuel for engines in which the fuel is injected into the combustion chamber and ignited by pressure without electric spark.

Motor fuel: All volatile and inflammable liquids produced, blended or compounded for the purpose of, or which are suitable or practicable for, operating motor vehicles.

Private biodiesel fuel producer: A person who converts biomass materials into biodiesel or blended fuel exclusively for his or her personal use, and does not offer for sale.

Sale: Sale in addition to its ordinary meaning, is any exchange, gift or other disposition. In every case where motor fuel is exchanged, given or otherwise disposed of, it shall be deemed to have been sold.
